Response Time	8 ms

Sound Technology

Broadcast Stereo Sound
SAP (secondary audio program) where available
Audio Power front speakers   8 watts/channel x 2
Headphone Adjustments

Commercial Features

NTSC/ATSC/QAM Tuner for a wide range of options using off-air, satellite/cable or internally generated program signals.

Channel-Guide with One-Button Access for an on-screen listing of all available channels and their identification labels.

8-Character Channel Labeling allows for on-screen display of both network affiliation and channel number.

User Remote with TV1/TV2/TV3 Capability allows simultaneous control of multiple monitors in the same room.

ENERGY STAR® Qualification saves energy costs.

Power Provisions for Third-Party Modules eliminate the need for wall-transformers, wiring snarls and "set-top" boxes.

Digital Serial Communications Interface (DSCI) allows third-party interactive systems to monitor and control television with optimal performance and efficiency.

Configuration Menus with Non-Volatile Memory for site-specific specifications and limitations on how televisions can be operated and retained, even when power is lost.

Selectable Weak Signal Muting mutes audio, blanks video and provides an on-screen message if signal is weak or lost.

Selectable Clock and Scheduler with automatic time set allows TV signal to automatically set time (where available); scheduled turn on/off events can be one-time or recurring.

Volume Limiter and Initial Volume establish maximum and consistent initial volume settings each time television is turned on.

Selectable Automatic Turn-Off permits television to turn off automatically after a period of inactivity.

IR and Wired Cloning Capabilities allow rapid duplication of configuration information between televisions for ease of installation and maintenance.

Side Access A/V Jacks offer convenient connection of external audio or video components.

Front Panel Lockout prevents tampering.

Commercial Cabinet with Mountable Stand provides integral mounting ability.

Software Upgrade Port to upgrade firmware in the field.

This television receiver provides display of television closed-captioning in accordance with §15.119 of the FCC rules. This television does not support color attributes of television closed-captioning.

Optional Accessories

ClonePRO™ Remote (CBX203)
This unique accessory significantly reduces installation and programming time, allowing you to program one television and then transfer the same data to all similar sets in just seconds. The more RCA televisions you install, the more efficiency you gain.

Master Remote (R130K2)
The RCA Master Remote maintains control of all setup menus, including audio and video functions.
